

Site Issues

How do we know whether we have to register an applicant with the PVG scheme or if they just need an update?

If the applicant has already performed a PVG scheme record, they will have been provided with a PVG number on the certificate.

This is the number to be used for Updates.

Only the applicant knows this number and can contact Disclosure Scotland if they have lost it - 0870 609 6006.

It is a 16 digit number.

If the application is performed via Civil & Corporate Security, we retain the PVG number on the applicant's file for any later updates.
